

Stallholder Agreement 2022 - 2023

Bay of Islands Farmer's Market Health and Safety Policy

Each individual market is responsible for ensuring compliance with their obligations under the Health and Safety at Work Act 2015 (the ACT) and associated regulations. This includes, but is not limited to ensuring:

1. **The safety of themselves and members of the public around their market.**
2. That all gazebos and umbrellas are securely weighted down in preparation for any weather conditions at all times.
3. That all stallholders' goods are displayed safely on a sturdy table or display unit.
4. That any vehicles in the market are safely and securely parked.
5. That all extension cords are covered to prevent people tripping over them, e.g. where they lay across crossings, paths, etc.

5.1 Powered site holders must ensure that:

- 5.1.1 A residual current device (RCD) is to be directly plugged into the power unit, which is then plugged into one complete cord that runs directly to the stall.
- 5.1.2 The stallholder must ensure that all connections are protected from any potential change in the weather, i.e. Rain.
- 5.1.3 All extension cords must have current compliance or "test tag label" on them.

5.2 Vendors must ensure compliance with their obligations under the ACT and associated regulations. In particular, those vendors that use any kind of cooking equipment at the market must ensure the safety of the public. This will include, but is not limited to ensuring that:

- 5.2.1 Any hot equipment is kept away from the front of the stall, out of the reach of customers.
- 5.2.2 Oil or fat is sheltered from the weather elements, such as rain.
- 5.2.3 When selling products that are cooked, processed, pre-cooked or pre-packed, it is the vendor's responsibility to ensure compliance with any and all legal requirements relating to the production, sale and advertising of these products.
- 5.2.4 If cooking a fire extinguisher and first aid box must be easily accessible and up to date.
- 5.2.5 If using power or any kind of cooking facility, it is required that a safety plan is in place in accordance with the applicable laws and regulations.

- 6 It is the Market's responsibility to identify hazards and associated risks relating to the operation of the Market and to take steps to eliminate or minimize those hazards and risks, for example by identifying those hazards and risks in a risk register which would enable the Market to put any necessary control measures in place.
- 7 The Market can request all and any unsafe activities and/or equipment be stopped or that control measures are put in place immediately.
- 8 I have read and agree to the Health and Safety Rules and regulations set out in the Market's Health and Safety Policy.

Stallholder Agreement 2022 - 2023

Between Bay of Islands Food Group Inc. (BOIFG) a registered Incorporated Society trading as Bay of Islands Farmers Market (BOIFM) and the Stallholder.

BOIFG principles seek to:

Restore the link between producer and consumer and to promote sustainable methods of production and marketing. Stallholders are regional farmers, growers or processors who sell their own produce/product direct to the public, mostly including quality fresh fruit and vegetables. All products sold at the Bay of Islands Farmers' Market (the Market) should be grown, reared, caught, brewed, pickled, baked, smoked or processed by the vendor. The Market is not a flea market or an art and craft fair/fête. Therefore, the only products sold at an authentic Farmers Market and accepted by the Australian and New Zealand national associations are fruit, vegetables, herbs, plants, bread, coffee, wine, oils, cheese, free-range eggs and poultry, meat products, flowers, artisan goods including preserves and pickles, jams, baked goods. Value added products such as skincare are considered if made using ingredients grown or produced by the seller or sourced locally. Products that form part of the food production cycle such as compost, worm farms, edible plant seedlings, and small farm animals are also allowed e.g. piglets, lambs.

BOIFM is a not-for-profit community-run venture. Any profit goes back into the maintenance, marketing and promotion of the Market.

In addition:

All produce must be local/regional (subject to clause 3.2).

Stallholders may sell only their own produce; **retailing or on-selling from other producers is not permitted**, with the exception of selling on behalf of other members – see clause 2.12.

The person behind the stall must be the grower/producer, close family member or an employee directly involved with production.

1. THE PARTIES AGREE:

The principles stated above form part of this Agreement.

1.1 By signing the stallholder contract the stallholder agrees to abide by the rules and guidelines outlined in this document and the BOIFG Inc. Constitution. The BOIFM is run by the BOIFG, a charitable organisation set up in 2004 to support and encourage small growers and food producers in Northland. A copy of the aims of the group and rules of incorporation (Constitution) are available upon request from the Market Secretary or can be viewed at the market website www.bayofislandsfarmersmarket.co.nz.

1.2 The stallholder contract, once signed, is valid until the 31st of March of the following year.

2. GENERAL MARKET RULES

2.1 Goods offered for sale at the Market must be fresh, good quality Northland produce/product.

2.2 All stallholders must comply with applicable New Zealand Food Safety Authority Regulations as administered by the Far North District Council. To ensure that you comply with any necessary regulations, contact an Environmental Health Officer on 0800 537 4342 or eho_rfs@nhl.co.nz.

Stallholder Agreement 2022 - 2023

2.3 All stallholders must be members of the BOIFG. New stallholders will have a two week try-before-you-buy period, in which they can decide whether the market is a good fit for them.

2.4 Stallholders are responsible for paying for all income tax, GST and any other regulatory duties associated with the sale of their produce/products.

2.5 Stallholders must price their own products and prices must be clearly displayed.

2.6 Weights and measures must be accurate.

2.7 Stallholders are responsible for their possessions in and around their stalls.

2.8 Stallholders are required to maintain a high standard of retail conduct, in particular, smoking and the consumption of alcohol is not permitted at, behind or near stalls.

2.9 Stallholders are not permitted to bring dogs to the Market.

2.10 Stallholders who are handling processed food are advised to complete a food safety course in Basic Food Hygiene before starting at the Market. Online courses are available at www.safefoodhandler.com.

2.11 Stallholders are to have a minimum of one sign on display at all times, which states either their business/trading name or their own name. The sign must be clearly visible to customers and be of sufficient size to be readable to customers standing within your stall area. No signage on your stall shall have the word organic on it, unless your property/business complies with clause 10.9 of this agreement (this includes any banners, clothing, labels etc...).

2.12 Selling on behalf is allowed under the following conditions: Items must be another member's product – no outside buying; items can only be sold on behalf if no other stallholder is selling that item at that market; items must be pre-approved by the Executive prior to **every** market; stallholder must state 'Selling on behalf of...' in writing when selling, visible to public.

3. ELIGIBILITY

There are two categories of stallholder - the **farmer/grower** and the **artisan producer**.

3.1 Produce must be grown or farmed in Northland. Selling produce grown by anyone other than the stallholder contravenes the principles and philosophy of Farmers Markets and the rules of Farmers Markets New Zealand, Inc. to whom the BOIFG, Inc. is affiliated and is **strictly prohibited**.

3.2 For the artisan producer, products must incorporate mostly Northland-based produce. Exceptions may be made in cases where the base product cannot be sourced locally, e.g. coffee, sugar and flour for baked goods.

The following also applies:

- Coffee - the stallholder must roast the beans;
- Bakery products must be baked from traditional individual ingredients and must not include any pre-packed or pre-mixed items. The baking must be of an artisan nature.
- Artisan products must be produced in a licensed, registered kitchen. The license must be displayed at the Market.

3.3 In accordance with Farmers Market New Zealand, Inc. (FMNZ) guidelines, a good balance (70/30 ratio) must be maintained between fresh produce and artisan products. The

Stallholder Agreement 2022 - 2023

BOIFG Executive (the Executive) will review this situation on an ongoing basis and acknowledge that the balance may vary depending on the time of year.

3.4 The decision on the number of stallholders selling the same or similar category of produce/product shall be at the discretion of the Executive. Regard shall however be given to existing volume and quality of produce/product already available to customers at the market.

3.5 Potential stallholders must submit a list of what they would like to sell at the Market, with a description of what their product contains, where applicable. If the stallholders list is approved by the Executive, it must be adhered to and the Executive must approve any intended change. The stallholder cannot sell anything at the Market that is not on the approved list. Failure to update the stallholder list could affect the eligibility as a stallholder. Therefore it is agreed that the stallholder should apply before planting or at least a month in advance for new products (refer also Application for a Stall Site/Addition to Existing Stall).

3.6 If your contract with the BOIFG has previously been terminated under clause 5.1 of this agreement, you are not eligible to reapply to become a member.

4. RIGHTS OF STALLHOLDER

4.1 A stallholder or prospective stallholder has the right to come to an Executive meeting to put forward a proposal or to air a grievance.

4.2 Any member wishing to raise an issue with the Executive or lay a complaint, must forward it in writing to the Market Secretary. The issue will then be investigated and the outcome advised.

4.3 Advance notice of attendance at an Executive meeting must be forwarded to the Secretary in writing, allowing sufficient time to enable the item to be included on the meeting agenda.

5. RIGHTS OF BOIFG, INC. EXECUTIVE

5.1 Stallholders who, in the opinion of the Executive, bring the Market into disrepute will be excluded without notice. Written notice will be given to stallholders who do not adhere to the rules and principles of the Market (refer clause 2).

5.2 No responsibility will be taken by the Executive for the success or otherwise of individual stalls.

5.3 Admission or non-admission of stallholders to the BOIFM shall be the decision of the Executive.

5.4 The Executive reserves the right to conduct or direct property inspections.

5.5 The Executive reserves the right to direct residue testing of any produce on sale at the Market at any time.

5.6 The Executive decision as to size, shape, and location of individual stalls and the configuration of the Market is final.

5.7 Product quality will be monitored by the Market Coordinator in consultation with the Executive.

5.8 The Executive reserves the right to ask for proof of origin and description of produce/product being offered for sale.

Stallholder Agreement 2022 - 2023

5.9 The Executive or its authorised agent reserves the right to have the vehicles of unauthorised stallholders or any other unauthorised persons located in the precincts of the Market towed away without notice.

5.10 No written or electronic material may be distributed at the Market or to stallholders without the approval of the Executive.

6. RIGHTS OF MARKET COORDINATOR

6.1 The Market Coordinator will manage the market layout and stallholder positions as required on market day, while ensuring it is still reflective of the Executives approved layout.

6.2 The Market Coordinator will record products/produce being sold by stallholders to ensure stallholders are selling in accordance with their approved list.

6.3 The Market Coordinator as the Executives authorised agent shall have the right to undertake tasks as assigned by the Executive.

7. ADMINISTRATION

7.1 If a stallholder is unable to attend a Market, they should advise the Market Coordinator prior to the commencement of the Market (refer also clause 8.5). It is requested that stallholders give two weeks' notice of their intention to resign as a stallholder. Seasonal producers must give at least one week's notice of their impending season's end. When, due to unforeseen circumstances such as weather interrupting or delaying harvest, resulting in the grower missing a Market, the grower should inform the Market Coordinator as soon as possible. Should a stallholder be absent from the Market for a period of three months or more, he/she will be required to submit a new application. The executive reserves the right to make exceptions.

8. FEES

8.1 Membership fees are as per the fee schedule set by Executive each year at the Annual General Meeting. Daily market fees will reflect the size of the stall, whether it is located in Kerikeri or Paihia, or if power is used.

As at April 1st 2021 stall fees are set at \$20.00 per market for a single 3 x 7m site, regardless of seasonality. Every additional site remains at \$15.00 per 3m. This is subject to change at the 2021 AGM.

8.2 The membership subscription to the BOIFG is an annual fee of \$25.00 and not pro-rated. It is therefore payable upon joining the Market and to keep membership current again on the following 31st of March (refer also to clause 1.2).

8.3 A stallholder who is expelled from the Market or given notice under clause 14 will automatically relinquish their membership of the BOIFG - the membership subscription will be non-refundable.

8.4 The Executive reserves the right to raise the market fees to cover genuine expenses e.g. power, leases. Stallholders will be notified one week in advance of any increase. Notice of any increase will be in writing and contain an explanation.

Stallholder Agreement 2022 - 2023

8.5 Stallholders who fail to attend a Market without having notified the Market Coordinator prior to the commencement of the Market will be charged for that particular Market. Exception will be granted for valid reason, subject to the discretion of the Executive Committee.

In the interests of public safety and for ease of set-up, stallholders must be on site by at least 45 minutes prior to the commencement of trading. All awnings are required to be securely tied down, regardless of the weather conditions.

9.3 Stallholders should not start packing up until the close of trading. Stallholders must wait until 10 minutes after the close of trading before leaving taking care that all pedestrians have left the site. Even if you sell out early, please support your fellow stallholders by staying on site. A SOLD OUT sign should be displayed. Do not dismantle your awnings/trestles etc.

9.4 Each stallholder is responsible for dismantling his or her stall and clearing it away at the close of the Market.

9.5 At Market closing, each stallholder must remove any rubbish generated by his or her stall from the site, including vegetable matter and plastic bag butts. The use of the street rubbish bin for the disposal of stallholders rubbish is strictly prohibited at the request of the Far North District Council.

9.6 Stallholders are expected to assist with the setting up and packing away of Market equipment e.g. tables, chairs, gazebos, power cables and signs. The Market Coordinator reserves the right to create a roster for such duties if it is deemed necessary.

Stallholders undergoing the certification process may be regarded as organic by the decision of the Executive and if approved, will be required to submit an annual status report as to progress toward certification.

10.10 The definition of spray-free is as follows: no product/produce is to come into contact with ANY fungicide, herbicide or insecticide being derived from a natural origin or synthetic (if in doubt, check with the Executive Committee).

The definitions of organic and spray-free will be available to the public.
